

Bruno Basalaj: I'm a student at the Complex of Schools No. 14 in Warsaw and I'm studying the profile of graphics technician and digital printing. In my free time I play games, take a lot of pictures and listen to a lot of music.

Creation of the poster was inspired by an article about an orphanage. I learned that often children from orphanage do not have a good phone and access to good technology. I realized that many have old unneeded smartphones that they could donate to those who need them.

Dominik Chudy: a student of the Complex of Schools No. 14 in Warsaw on the profile of graphic technician. He is interested in Graphic design and English humor. He likes to draw in comic techniques. He chose the topic because sees the needs of animals confined in shelters.

Marta Czarnecka: I am a high school student of the Complex of Schools No. 14 with a profile of graphics computer graphics and printing. My interests have always been creation and design and recently I found my new hobby, which is 3D modeling.

By creating a poster, I would like to highlight the problem of extinction of the species that surround us. Every day about 100 species of animals and insects become extinct. The basis of the Earth's existence is the diversity of species, which is decreasing from day by day at a very fast pace. In connection with this, people should protect animals and support organizations that help animals, starting with native animals - the wolf, which is depicted by me on the poster.

Martyna Domaradzka: I am a student of 3D modeling class of the School Complex No. 14 in Warsaw. I am interested in drawing and painting.

I created my poster because of the problems affecting young people in Poland, including myself and my own friends. Its purpose is to raise funds for the construction of a psychology department at the Children's Health Center. In 2021 itself. - from the beginning of January to the end of November - as many as 1,339 Polish teenagers attempted to take their own lives. I believe that mental health is just as important as physical health and should be given the same amount of attention.

Aleksandra Jakoniuk: I am a student of class III at the School Complex No. 14 in Warsaw, majoring in technician of graphic design and digital printing. I am interested in handicrafts, music and sports. I like to take action for nature and society.

I chose the topic of the poster because of my desire to take environmental protection activities. More and more bodies of water in the world are polluted with harmful substances and plastic waste, which has a very negative impact on the ecosystem. Water pollution is associated with the extinction and suffering of many species of animals and plants, not just marine ones. It is also important to remember that water is the source of life and its quality should be taken care of.

Piotr Kaniewicz, a graduate of the School Complex No. 14 in Warsaw, this year's high school graduate: I chose such a topic due to the fact that it can happen to any of our youngest loved ones. This is a current problem and, unfortunately, probably won't cease to be so soon.

I designed the poster with a view to its usability, the fact that it will be used somewhere, which is why the the company name is what it is. I typed there the first thing that came to my mind with the idea that if this poster will be chosen as a poster advertising the collection, the organizer will simply write there their data.

I wanted the work to be as clear and universal as possible, while at the same time conveying what, it is supposed to convey in a very simple way. In addition to the text, there was no information here

saying what the collection is for, as I assumed that the person organizing the collection might have a different, already predetermined preconceived goal.

Patryk Kozłowski: I am a student at School Complex No. 14 majoring in graphic design and digital printing. I like games music, movies and automobiles, which I have been in touch with since childhood. Hence my idea for the poster.

Amelia Lech: a student of the Complex of Schools No. 14 in Warsaw on the profile of graphics technician. She is an activist in the school council and participates in many social actions organized on school grounds. The subject of the work stems from her social interests.

Stanisław Miśkiewicz, a student at the Complex of Schools No. 14 in Warsaw on the profile of graphics technician: I am interested in 2D and 3D drawing techniques, I am passionate about social technology. The topic of my work is an image my interests and the needs of people affected by health problems.

Maja Nowak: student of the Complex of Schools No. 14 in Warsaw on the profile of graphic technician. She is interested in art and enjoys painting using both traditional methods and computer techniques. She herself sometimes struggles with her own problems, as well as seeing the need to support her colleagues. That is why she chose such a poster theme.

Mikołaj Polkowski, a student at the Complex of Schools No. 14 in Warsaw on the profile of graphics technician: I am interested in graphics and design. I combine the themes with my graphic design ideas. Elephants are beautiful and great, that's why I dedicated my poster to saving them.

Jakub Siwek: I am a student at the Complex of Schools No.14 in Warsaw, majoring in - technician of graphic arts of printing digital. I am primarily interested in drawing and 3D graphics. The inspiration for my work was to help people in need. Such people are most often perceived as worthless and in fact reality they are people who have had a hard life and now need our support.

Erik Stoliarov: I am 18 years old, I come from Ukraine, I study at the Complex of Schools No.14 in Warsaw on the graphic design and digital printing profile. I am fascinated by graphics, art, fashion and music. I considered the subject of the poster as very important, because I think that the mental health of children is most important and we often forget about it.

Aleksandra Sulejewska, this year's high school graduate, graduates from School Complex No. 14 in Warsaw: I am interested in graphic design and art. I love animals and am concerned about the extinction of animal species important to the earth's ecosystem. That's why I proposed a fundraising for one of the most endangered species.

Krzysztof Slubowski: I'm a student at the Complex of Schools No. 14 in Warsaw in class profile of technician graphic designer. I have been interested in drawing and design since I was young. While creating this poster, I was not fully familiar with the Illustrator program, which is why it is composed mainly of simple shapes.

Nowadays, the topic of climate change and our impact on the environment is, in my opinion, a topic worth mentioning. Spreading awareness about the seriousness of this problem is one of the steps towards solving it. For this reason, I decided to take part in this exhibition.

Oskar Teresinski, this year's high school graduate, a graduate of School Complex No. 14 in Warsaw: I am interested in new media art and intend to study in such a field. The topic of my work stems from the fact that I am interested in exotic birds and their beauty. Therefore, the topic of my work is fundraising for one of the endangered species.

Kamil Tyka: I am a student at the School Complex No. 14 in Warsaw, majoring in graphic design and digital printing. I really like nature and the sea is one of the most endangered areas on earth. Therefore I chose such a theme for my poster.

Michal Wisniewski, a graduate of School Complex No. 14 in Warsaw this year's high school graduate: History has always been a great passion for me, and cemeteries and the people resting on them, in my in my opinion, are an extraordinary sign of times gone by.

It always makes me sad when I see old tombs and monuments that, as if forgotten, are deteriorating and falling into ruin. Therefore, in an effort to prevent this this, I created my poster.

Oliwia Wozniak: I am a student, school complex no. 14 in Warsaw, majoring in graphic designer-poligraphy. I like drawing animals, so making this poster not only did not cause me any difficulties, but it was also enjoyable. When choosing a topic, I took into account what is relevant and what is important to me.

Anna Zielińska: I am a student of the Complex of Schools No. 14 in Warsaw in the class with a profile of graphics and digital printing. In my free time I most enjoy drawing and spending time with friends.

I was inspired to choose the topic of my poster by the current state of the Earth's climate and its impact on us all of us. The concept of exchanging smartphones for a campaign to plant new trees immediately came to mind to my mind as one way to protect the environment. I hope that my poster will encourage many people to explore this topic and take action in this direction.

Kasia Zych, a graduate of School Complex No. 14 in Warsaw and this year's high school graduate: I rarely I see collections intended for heart disease. Several people closest to me suffer from them, that's why this is an important topic for me.
